

As an Indiana Citizen, I want to note my concern about proceeding 278. Indiana was a leader in this type of legislation, and I am very satisfied with our "Do Not Call Law". I feel that any any pre-emption from the Federal law will only diminish the effectiveness of this law which I, my family, and neighbors do not want to happen. The Indiana voters have spoken loud and clear with their enrollment, they support the Indiana Law, that should be reason enough to deny the petition.
